Volunteer Start Date Change

We welcome all our volunteers **from** Wednesday March 6th. This will be a week of garden classes.

We apologise as this differs from the dates you were given on the notes.

Classes with volunteers now start two weeks later than the original date. The children are currently having introduction and revision classes.

All volunteers should have received a welcome email through our Geddup communication system. This email explains how the volunteer roster works. All volunteers will receive an email about 5 days before your scheduled session to confirm the date and starting time. It also has a contact number if you are unable to attend that day or need to contact us at short notice.

It isn't too late to volunteer. If you would like to, please contact us at one of the above emails any time during the year.

A colourful
collection of
our summer
harvest

Year 3s have been excited to have their first sessions in the kitchen. Here, Leo and Callum are skilfully practicing the bear claw to cut our freshly harvested Mariposa blood plums for fruit platters.
